Presenting StyleLite

StyleLite is a laminate and panel system offering cabinet, closet and store fixture manufacturers, millworkers, furniture makers, property owners and the design industry a contemporary and highly flexible ultra gloss and matte solution that is both luxurious and affordable.

StyleLite delivers a far superior surface finish and appearance compared to HPL, PET, TFL, paint, RTF and other thinner acrylic laminates.

EGR manufactures StyleLite laminate using our world class ***TruColor*** co-extrusion technology, then bonds it to various substrates using a super fine layer of high performance waterproof and highly heat resistant polyurethane (PUR) adhesive to produce StyleLite panels which are supplied ready to fabricate.

StyleLite laminates and panels are manufactured to stringent internationally recognized quality standards and are suitable for virtually any residential, retail, commercial, cultural or institutional project where a ripple free, highly durable and easy to maintain contemporary finish is desired.

For over 10 years, EGR has been supplying StyleLite to North America and we are proud to announce that as of February 2024, many StyleLite panels are now manufactured in the USA.

StyleLite® Superior features and technology

StyleLite's Superior Features

- Made in the USA
- Ultra high gloss and matte finishes with incredible color consistency, depth, surface flatness
- Diverse range of solid colors, metallics and special patterns
- Identical matching laminates in all colors and finishes
- Color matching edge bands for glue and heat activating edgebanders
- Perfectly balanced panels
- High moisture resistant substrates are standard for 3/4" thick panels
- Superior workability including the ability to bend to create seamless edges and tight curves
- High resistance to chipping and cracking
- Panels which will not delaminate around heat producing appliances such as ovens, dishwashers, steamers, ranges, and coffee makers
- Repairable gloss surfaces
- Available in a range of different cores, lengths and thicknesses
- Exceptional UV resistance and color fastness
- High levels of stock in strategically located US facilities
- 10 years limited indoor residential warranty (3 years for non-residential)
- Comprehensive network of distributors throughout the US, Canada and Puerto Rico
- Unrivaled technical support from product experts

UV Stable TruColor Technology

Our latest proprietary co-extrusion technology called ***TruColor*** is used in the manufacture of StyleLite solid color and metallic finishes.

TruColor incorporates an additional layer of UV enhanced color enriched ABS resulting in a surface finish with exceptional color consistency, depth and flatness combined with advanced color fastness due to improved resistance to the impact of UV rays associated with exposure to the sun and ambient light.

StyleLite® Residential; cabinetry and furniture

StyleLite excels in the home, especially in the kitchen, bathroom and laundry.

Setting the Standard in Residential Cabinetry

In residential cabinetry and furniture applications, StyleLite outclasses the competition. Its thick, optical grade, glass like pristine appearance is highly sought after and is the envy of others.

StyleLite simply excels in the home, especially in the kitchen, bathroom and laundry.

With excellent durability, including the ability to restore its gloss finish if lightly or moderately scratched and unsurpassed resistance to chipping, cracking, flaking and peeling, StyleLite is the preferred choice of many architects, designers, manufacturers and property owners for contemporary cabinetry and furniture.

Slate TruMatte and
Ash TruGloss

StyleLite® Residential; closets and storage

Braun TruMatte

StyleLite panels are perfect for closet doors, shelves and dividing and end panels.

Incomparable in Closet Applications

StyleLite panels are perfect for closet doors, shelves and dividing and end panels.

Combining incredible bending properties and long panel lengths (10'), StyleLite can be designed and fabricated to create the most beautiful, sophisticated and striking cabinetry and closet elements including thick seamless panels and shelves.

StyleLite®

Commercial, retail and other related; cabinetry,

StyleLite leads the way providing designers and building owners with elegant and practical cabinetry, furniture, fixture options and wall linings.

Exceptional Durability & Finish in Commercial & Retail

In commercial, social and cultural environments such as offices, hotels, multi-family unit projects, museums, sporting facilities and showrooms, StyleLite leads the way providing designers and building owners with elegant and practical cabinetry, furniture, fixture options and wall linings.

Ideal for use in the retail sector, and used by many well known retail brands, StyleLite is a perfect alternative for painted surfaces, TFL and other inferior solid core and high pressure laminates.

StyleLite provides designers and fabricators with a vastly superior finish as well as excellent resistance to chipping, cracking, peeling and flaking.

The exceptional workability of StyleLite in the shop results in far less rework and considerably greater flexibility in designing special aesthetic features.

fixtures, furniture and wall panels.

Panel Sizes

High Moisture Resistant MDF Core

- Nominal 3/4" (18mm) 4' x 8' (all colors)
- Nominal 3/4" (18mm) 4' x 10' (many colors)

Standard MDF Core

- Nominal 1/4" (6.5mm) 4' x 8' (some colors)

* Other core thicknesses and types such as plywood may be available subject to conditions. Check with EGR or your distributor representative.

StyleLite Edge Band

A near seamless appearance can be achieved using StyleLite high quality color matched edge band. Edge band in all panel colors is available for use with glue edgebanders. Heat activated edge band is also available in some colors.

StyleLite Laminate (SHAB)

StyleLite 0.8mm to 2.0mm thick laminate (SHAB) is also available to complement and contrast StyleLite panels.

Due to its inherent flexibility and the thermoforming characteristics of StyleLite laminate, creating tantalizing curves, seamless corners and edges and many other special design elements are limited only by imagination.

Availability

StyleLite panels, matching edge tape and StyleLite laminate are available from selected specialist distributors throughout North America.

StyleLite® Panel Properties and Performance

Properties	TruGloss	TruMatte
Gloss Level	> 90%	6 to 8%
Mass (Nom. ¾" MDF)	2.8 lbs/sf or 91 lbs/4'x8' panel or 113 lbs/4x10' panel	
Mass (Nom. ¼" MDF)	1.1 lbs/sf or 36 lbs/4'x8' panel	
Mass (Nom. ¾" MPP)	2.2 lbs/sf or 72 lbs/4'x8' panel	
Surface Hardness (Post Cure)	4H	6–7H
Heat Distortion Temperature	185˚ F	
Service Temperature	158˚ F	
Stain Resistance	No Effect	
Steam Resistance	No change after 30 minutes	
Dry Heat Resistance	No loss of gloss or color change	
Strength of PUR Lamination Bond	100% Fiber Split	
Panel Backer	2S - Equivalent StyleLite Laminate; 1S - Thick ABS Laminate	
StyleLite Laminate Thickness	1mm – 2mm	0.8mm to 1mm

Caring for Our Environment

StyleLite offers significant environmental advantages compared with other contemporary panel and laminate products.

Unlike other potentially environmentally harmful processes such as spray painting, none of the color pigments used in StyleLite contains heavy metals, such as lead or cadmium. StyleLite laminate is also recyclable – making it the best high gloss and matte choice for modern eco-friendly interiors. The MDF cores used in the manufacture of StyleLite laminated panels are eco-friendly and safe complying with one or more of CARB P2, TSCA Title VI, E0 and ULEF standards for formaldehyde emissions.
